Strategic Planning is simply thinking about where we want to go and how we want to get there. It involves everyone who has a stake in the future of the college. To date, the strategic plan represents the collective ideas of the various stakeholders: the community, the students, the faculty and staff, and finally, the Board.

Every three years New Mexico Junior College (NMJC) engages in a two-day Strategic Planning Board Work Session. It is extremely important to involve many different stakeholders in the planning process. The following is an overview of individuals invited to participate in the 2001 Strategic Planning Board Work Session:

- Lea County Legislators
- Lea County Public Schools
- Lea County Municipalities
- Lea County Economic Development
- College of the Southwest
- Commission on Higher Education
- New Mexico Association of Community Colleges
- New Mexico Junior College Foundation
- Local media
- New Mexico Junior College Faculty, Staff, and Students

After gathering input from stakeholders, the NMJC Board and Strategic Planning Cabinet prioritize objectives and update the five-year rolling strategic plan. The planning system for New Mexico Junior College consists of synergistically interweaving several components together to provide the impetus to move NMJC forward. The components are:

**Strategic Plan** - The Strategic Plan is the long-range outlook that gives needed information and direction to the college for growth over the next five years. Strategic Plan progress is updated three times a year to ensure progress and accountability.

**Master Plan** - The campus Master Facility Plan utilizes the Strategic Plan to give needed information and provide direction for campus growth and expansion.

**Yearly Plan** - The Yearly Plan provides strategies and direction for the campus and the campus managers that will help the institution address the strengths, weaknesses, and opportunities as laid out in the Strategic Plan.

**Budget Plan** - The Budget Plan provides the resource requirements to achieve the Yearly Plan.

**Information Technology Plan** - The 3-year IT Plan is provided to the Commission on Higher Education to inform them of institutional progress in the replacement and update of technology equipment.

**Roofing Plan** - The Roofing Plan provides a detailed analysis of all institutional roofs and the year in which they should be replaced.
Strategic Plan Overview

**Equipment Replacement and Renewal Plan** - The institutional ERR Plan provides for a replacement schedule for equipment throughout the campus.

**Building Replacement and Renewal Plan** - The institutional BRR Plan provides for building renewal and replacement on an annual basis.

**Paving and Sealant Plan** - The institutional Paving and Sealant Plan provides for periodic renewal of campus roadways and parking lots.

**Landscaping Plan** - The institutional Landscaping Plan provides for ongoing and emerging trends in landscaping and revitalization of the grounds.

**Evaluation Plan** - The Evaluation Plan assesses the effectiveness, achievements, and institutional performance as it relates to the Strategic Plan, Master Facility Plan, Yearly Plan, and Budget Plan. A progress update is provided to the Board annually.

**Appendix** - The Appendix represents completed 1999 objectives and information gathered during the 2001 planning process. It represents input from the community, the NMJC staff and students. This information provides the conceptual framework for the Overarching Themes, Vision Statements, Strategic Objectives, and Activities. This portion of the document should be read first.

### V-1, Obj. 1, Activity 1
A comprehensive plan to evaluate all programs will be developed that ensures fairness, equity, and enhances the decisions of the college to delete or add programs. A review of all educational programs must be done on a regular basis. Accountability and improvement of each program are the goal. (1999 Strategy 1)

**Status**: Complete

**Accomplishments**: A new policy and procedure for education program review has been developed and approved. A program is now defined as a certificate and/or degree program that is technical/vocational in nature. These programs will go through an intensive program review every five years. Courses for academic transfer will continue to be evaluated based only on enrollment patterns and student evaluation.

### V-1, Obj. 1, Activity 4
Evaluate the driving range operation. (1999 Strategy 2)

**Status**: Complete

**Accomplishments**: The outcome of the evaluation meeting was to reclassify the driving range as an instructional facility and discontinue auxiliary services. Date posted for change is March 15, 2000. All budgets will reflect the change for 2000-01.

### V-1, Obj. 1, Activity 5
Evaluate the continuance of the Docu Tech lease. (1999 Strategy 2)

**Status**: Complete

**Accomplishments**: Docu-tech lease was renewed July of 2001 for one year and will be up for renewal.

### V-1, Obj. 1, Activity 6

**Status**: Complete

**Accomplishments**: The committee elected to reapply for continuance funds for the 2001 summer. Funding was secured for 2001 and program began 6/18/01 for two weeks.

### V-1, Obj. 1, Activity 7
Evaluate New Student Orientation. (1999 Strategy 2)

**Status**: Complete

**Accomplishments**: A complete evaluation is conducted following each orientation. Orientations are video taped. An evaluation form is completed by each student and by faculty/staff involved in the orientation. The Orientation Committee reviews and evaluates the orientation for content, technical, and performance issues. This group uses experiences from past orientations to continually improve the orientation process.

The social committee organizes the secret pal activity at Christmas time. This is an opportunity to have a secret pal for a week, and then a party on Friday where everyone gives their pal a toy and a canned food that best fits their personality. The food and toys are donated to local charities. In the spring of 2000, we had a sock hop. For the fall 2000 in-service, we had a picnic/volleyball/woggle hockey party at the city park. Last Christmas, in addition to the secret pal activity, we designed the lights that were on display on top of the administration building, so that we’d be a participant in the Christmas in the Desert event. | Complete | The NMJC Foundation has accepted a Title V Grant Endowment Challenge. For federal fiscal year 1999-2000 the challenge was $83,204 and for fiscal year 2000-01 the challenge is $84,949. As of 6/6/01 $137,983 has been raised by the Foundation and has been matched. This has increased the NMJC Foundation’s endowment $275,966. The matching campaign will continue through 9/30/2004.  

The Foundation board has in place a fund-raising plan. Each board member is responsible for making selected contacts to solicit gifts for the college.  

The Development Office maintains a list of prospects for solicitation of gifts.  

The College’s focus is on building FTE 1-2% each year and retention that helps to stabilize state funding. In addition, we have chosen to use an average for oil and gas income that is reasonable rather than recalculating each year. Dialogue has been resumed with Jal to encourage them to become part of the taxing district. |
