

New Mexico Junior College

CCSSE 2025 Executive Summary of Results

Standardized Benchmark Scores

The *CCSSE* benchmarks are groups of conceptually related survey items that address key areas of student engagement. The five benchmarks denote areas that educational research has shown to be important to students' college experiences and educational outcomes. Therefore, they provide colleges with a useful starting point for looking at institutional results and allow colleges to gauge and monitor their performance in areas that are central to their work. In addition, participating colleges have the opportunity to make appropriate and useful comparisons between their performance and that of groups of other colleges.

Performing as well as the national average or a peer-group average may be a reasonable initial aspiration, but it is important to recognize that these averages are sometimes unacceptably low. Aspiring to match and then exceed high-performance targets is the stronger strategy.

Therefore, provided above is a comparison of your college's standardized benchmark scores with the averaged benchmark scores from the top 10% of the current three-year cohort.

For further information about *CCSSE* benchmarks and how they are computed, please visit www.ccsse.org.

Highest and Lowest Aspects of Student Engagement

Item	Benchmark
6c. Number of written papers or reports of any length	Academic Challenge
9f. Providing the financial support you need to afford your education	Support for Learners
12.1b. Frequency: Career counseling	Support for Learners
12.1d. Frequency: Peer or other tutoring	Student Effort
12.1e. Frequency: Skill labs (writing, math, etc.)	Student Effort

Item	Benchmark
5d. Making judgments about the value or soundness of information, arguments, or methods	Academic Challenge
6b. Number of books read on your own (not assigned)	Student Effort
7. Extent: examinations challenged you to do your best work	Academic Challenge
10a. Preparing for class (studying, reading, writing, rehearsing, doing homework, or other activities related to your program)	Student Effort
12.1h. Frequency: Computer lab	Student Effort

One way to dig more deeply into benchmark scores is to analyze those items that contribute to the overall benchmark score. This section features the five items across all benchmarks on which the college scored highest and the five items on which the college scored lowest relative to the 2025 CCSSE Cohort. It is important to note that some colleges' highest mean scores may be lower than the cohort mean, and conversely, some colleges' lowest mean scores may be higher than the cohort mean.

While examining these data, keep in mind that the selected items may not be those that are most closely aligned with the college's goals; thus, it is important to review all institutional reports on the CCSSE online reporting system at www.ccsse.org.

Notes:

For Item(s) 5, *quite a bit* and *very much* responses are combined.

For Item(s) 6, 5–10 11–20 and *more than 20* responses are combined.

For Item 7, 5, 6, and 7 responses on the 1–7 challenge scale are combined.

For Item(s) 9, *quite a bit* and *very much* responses are combined.

For Item 10a, 11–20 21–30 and *more than 30* responses are combined.

For Item(s) 12.1a and 12.1b, 2–4 *times* and 5 or more *times* responses are typically used less frequently.
