- c) The student's cumulative overall GPA (NMJC & other institutions)
- d) Interview with Director of Nursing and committee-**VERY important part of the process**

Additional Courses*

- Medical Terminology (grade of B or higher)
- Microbiology (grade of B or higher)

2. All ranking scores are placed in order from highest score to lowest score.
3. The students with the highest ranking scores are selected for admission to the fall semester of the nursing program until maximum enrollment has been reached. Class size is limited.
4. Each student will be notified by **email** of his/her admission selection to the fall semester. **Students must reply to the email and express acceptance or declination of admission.** A deadline will be given. If a student does not respond with their intentions by the deadline, they forfeit their spot and a student will be selected from the waitlist.

• Applications Not Selected in the Initial Admission Selection Process

Applicants that satisfactorily met the admission eligibility requirements but were not selected before maximum enrollment was reached during the initial selection process are placed on a waitlist in ranking order.

• Applications for Admission Completed After the Due Date

Completed admission applications received after the May 20th deadline for fall admission to the nursing program but prior to the NMJC last day to add or enroll for credit are placed in the prospective applicant pool. Late applicants will be placed as last priority on the waitlist in order by the date in which they are received. If a late applicant is not selected for the current fall semester, they will need to reapply during the next application cycle, prior to the May 20th deadline.
