This tutorial demonstrates the use of Turnitin’s PeerMark to critique another student’s paper and read a critique done for you by another student.

Because Peermark assigns you a paper to critique randomly from all of the submissions, you must submit a draft by the due date to write and receive critiques. Also, you will not receive the paper you need to critique until the due time for submitting a draft has passed.

1. Navigate to the Turnitin assignment just as you did when submitting your draft, and click “PeerMark Reviews”.

Paper title: Rough Draft & Critique: Three Lessons

Date uploaded: 25 May 2014 21:38
2. Click on “Write Reviews.”
3. Click on “Start a Review” in the dropdown menu. If the option to start a review is not available, you will need to check back later when someone has submitted a paper you can critique.
4. The PeerMark Window will open. In the main window, the paper you are critiquing appears. In the right pane, questions you need to answer about the paper appear. Click the “Tools” button to display the commenting tools to use as you read the paper.
5. Answer the questions in the right panel and use the tools to add comments, highlighted comments, or drag a comment from the tools onto the paper, using the “Composition Marks.”
6. Use the save button to save your work as you go. You can start a critique, save it, and resume it later.
7. When you have completed the critique, click the submit button. This will submit the critique to your professor and the author of the paper.
8. Make sure you receive the submission complete message before closing the window.
9. To read a critique another student has written for your paper, navigate to the Turnitin assignment just as you did when submitting your draft, and click “PeerMark Reviews”.

10. Click the Green icon. If the icon is not there, your paper has not been critiqued yet, and you will need to check back later.
11. Once the PeerMark window loads, you will be able to read your feedback on the paper by clicking the icons in the main window and by reading the answers to the questions in the pane on the right side.
